

Vision

Everyone inspired are welcome to send their CV and motivation letter

Vision?

EWORKFORMS strives to be the leading provider in smart digital solutions for existing paper forms. We want to provide our services to the World, focusing on EU and USA as our starting point. We want to be taken as geniuses, innovator and trustworthy partners.

Strategy?

EWORKFORMS converts paper forms into electronically forms, for manufacturing industries and the like. This will support companies in the administration of Legal, Finance, and Insurance issues to save time, and money and to have strong documentation when needed, this could be to document liability after an interruption.

How will the vision and strategy be accomplished?

Exploiting the first mover advantage in the digital solutions as digital forms and with the Hot Work App as first product to manufacturing industry. EworkForms will use existing regulations such as Vds standards in the loss prevention part, for avoiding unplanned interruptions at any time. The mobile applications need to be interactive and operate with notifications and logical workflow. Mobile applications must be user friendly and easy to use no matter how complex the regulation most be. All kind of applications must be aimed for users worldwide.
